

Prem S

+91 8523921904 — premsivakumar19@email.com — linkedin.com/in/prem-sivakumar

Professional Summary

Detail-oriented Electrical and Electronics Engineering student with strong analytical, problem-solving, and programming skills. Passionate about power systems, embedded technologies, automation, and software development, seeking opportunities to contribute to innovative engineering projects while expanding technical expertise.

Internship Experience

Web Development

Cognifyz Technologies

2026 – Present

- Completed hands-on training in web development, building responsive and user-friendly web applications using modern technologies.
- Collaborated with the development team to design, develop, and optimize front-end and back-end features while following best coding practices

Education

A Bachelor Degree in Electrical And Electronics Engineering

2024 – 2028

Karpagam College of Engineering

CGPA: 8.11/10

Higher Secondary Certificate (HSC)

2024

Sathya Sai Matric Hr. Sec. School

Percentage: 89.66%

Secondary School Leaving Certificate (SSLC)

2022

Holy Angel Matric School

Percentage: 88.8%

Technical Skills

Programming Languages	Python, Java, C, C++
Libraries	Pandas, NumPy, Matplotlib
Web Technologies	HTML5, CSS3, React
Databases	MySQL
Tools	GitHub, VS Code
Concepts	Power Electronics, Control System
Soft Skills	Communication, Teamwork, Problem Solving

Projects

Personal Portfolio Website

HTML, CSS, JavaScript, React

- Designed and developed a responsive portfolio website showcasing projects, technical skills, and achievements.
- Optimized performance and user experience across desktop and mobile devices.

Traffic Light Controller

Hardware - Integrated Circuit(IC)

- This project creates an automatic traffic light system (Red, Yellow, Green) with a countdown timer using a 555 Timer (clock), CD4017 Decade Counter (sequencer), and a 4026 IC (7-segment display driver) without any sensors or programming.
- Improved prediction of the traffic by using efficient sensors and fourway signal traffic prediction.

Personalized Multi-device Control Through Voice Recognition and IoT Integration

Hardware - IOT

- Built an IoT system enabling personalized multi-device control via voice recognition, creating a seamless and intuitive environment for smart automation.

Certifications

- Soft Skills – NPTEL (2025)
- Introduction to Data Engineering and Big Data – Guvi (2026)
- Fuzzy Sets, Logic and System & Applications – NPTEL (2026)

Achievements

- Solved 200+ coding problems on coding platforms.
